# Our Vision for 2025

We are expanding our efforts to address the evolving challenges communities face due to the effects of a deepening economic crisis.

The core of our mission is our commitment to strengthening a diverse, agile, and impactful civil society. Through core and project-based funding, we will continue to address the specific needs of Türkiye's diverse communities promoting social cohesion, strengthening civic engagement, and providing aid to socio-economically marginalised groups.

## How we plan to make a difference in 2025

- We will continue our support for **gender equality** by working closely with organisations that empower women, combat gender-based violence, protect women's rights, and elevate feminist solidarity.
- Every child has the right to a safe, healthy, and supportive environment. We will expand our work to protect **children's rights** by supporting initiatives focusing on creating safe, inclusive environments where all children can realise their full potential.
- We will continue addressing **environmental challenges** by supporting organisations that bring innovative solutions for climate change and environmental issues, while building the resilience of local communities.
- We recognise the importance of **animal welfare and freedom** as part of a compassionate and ethical society. We have established a new grant programme to support initiatives that aim to protect stray animals by creating innovative local adoption practices.
- **Culture and arts** are essential to fostering a vibrant and diverse society. By funding initiatives in the fields of visual arts, music, theatre, and cultural preservation, we will continue to create spaces for creative dialogue and expression.
